

SMART AUDIO ADAPTER WITH DIGITAL RADIO - QUICK START GUIDE

Add Digital/Internet Radio with Spotify, Bluetooth, Multi-room & App Control
to you existing audio system

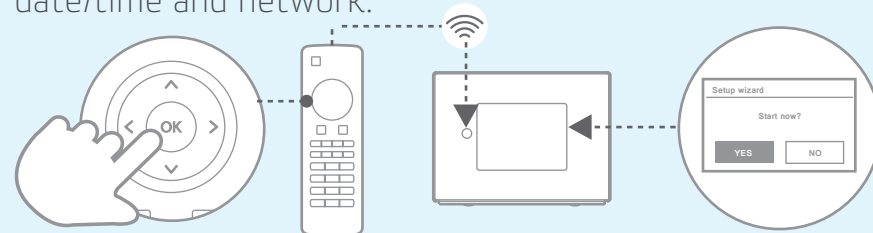

1. GETTING STARTED:

- ① Connect the DAB/FM antenna into the Antenna socket.
- ② Connect the audio cable between the adapter and your existing audio system to enjoy music from your audio system.
- ③ Alternatively, connect the optical cable between the adaptor and your existing audio system instead of above step 2.
- ④ Connect the power cord into the DC-In socket.
- ⑤ Connect the plug to the mains socket.
- ⑥ Press  to turn the adapter on. 'Setup wizard' will be shown when switched on for the first time.

2. SETUP WIZARD

When your BR330DABC is started for the first time, it runs through a setup wizard to configure settings for date/time and network.

- a Press OK button to start setting.
Press     buttons to set 12 or 24 hour format, synchronously update clock from DAB, FM, Network or No update. Keep network connection in all modes and select your network and insert the network password to connect.
- b
- c When establishing a connection via WPS, you can select 'Push Button' to press OK button on your remote control and SELECT button on your router to establish connection; or select "PIN" to enter the 8-digit number which is created by your adapter into your router to establish connection; also you can select 'Skip WPS' if you are using a standard network password and then enter your password to complete the connection.
- d Setup wizard is completed, press OK button to exit. 'Main menu' will be shown with 'Internet radio' being highlighted. Now, you can select your desired mode.

NOTE: When used outside of network range, this product will always scan for a network connection when the 'keep network connection' setting is selected during setup. In this case to disable the 'keep network connection' go to MENU>MAIN MENU>SYSTEM SETTINGS>NETWORK>'Keep Network connected' and set to NO.

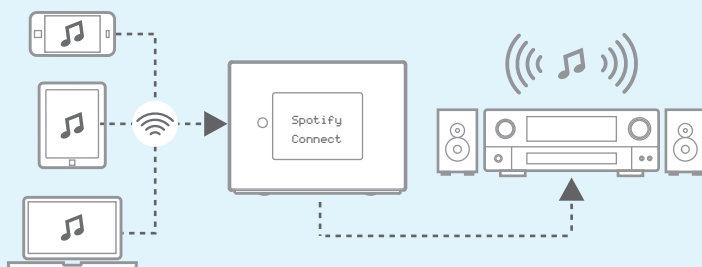

3. LISTENING INTERNET RADIO

Mode 'Internet Radio' lets you listen to thousands of global Internet radio stations and Podcasts.

- a Press OK button to select 'Internet radio' in main menu.
- b Press **< ^ v >** buttons to select your desired Internet radio station or Podcast.

4. PLAY MUSIC VIA SPOTIFY CONNECT

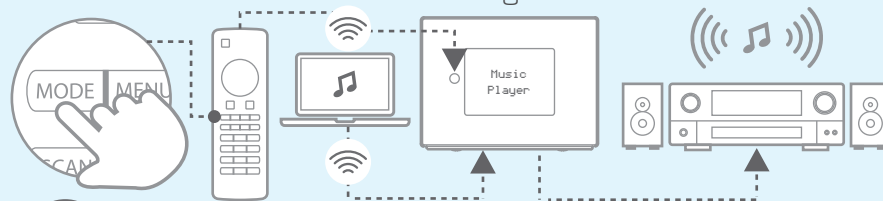

Your adapter has Spotify Connect built-in, this lets you control the music on your radio using the Spotify App on your smartphone, tablet or PC.

- a The BR330DABC radio must be connected to the same network as your smartphone or tablet. Open the Spotify App on your smartphone or tablet and play any song.
- b Tap the song cover image at the bottom left corner of the screen, and then tap the Spotify Connect icon .
- c Tap "BR330DABC" from the list.

5. PLAY SHARED MEDIA

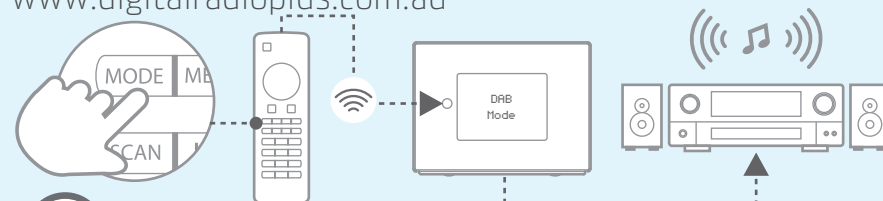

Mode 'Music Player' lets you to play music from your PC/Media server using UPnP (Universal Plug and Play) file streaming. Before using Music Player mode you need to setup your PC/Media server to share files or media. Both your BR330DABC and PC/Media server both have to be using the same Wi-Fi network.

- a Press the MODE button until 'Music Player' appears on the screen.
- b Press **^ v** buttons and then press OK button to select Shared media - Media Server - Music/Video.

6. LISTENING DAB RADIO

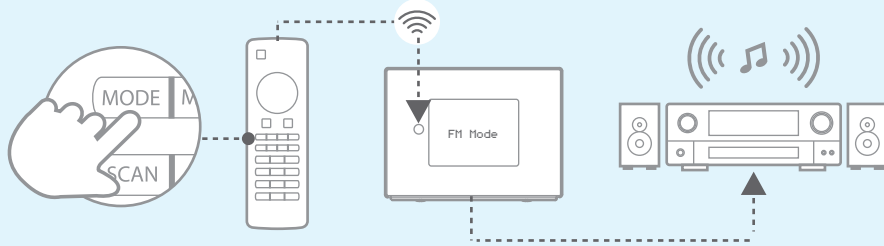

Mode 'DAB' lets you listen to all digital radio stations in clear crystal sound, with better reception and more choice. To check if you have coverage in your area, visit: www.digitalradioplus.com.au

- a Press MODE button repeatedly to select 'DAB' Mode.
- b For initial use, adapter will carry out a full scan and store available DAB stations in memory. Make sure antenna is fully extended.
- c Press **^ v** buttons to listen to your desired DAB stations.

7. LISTENING FM RADIO

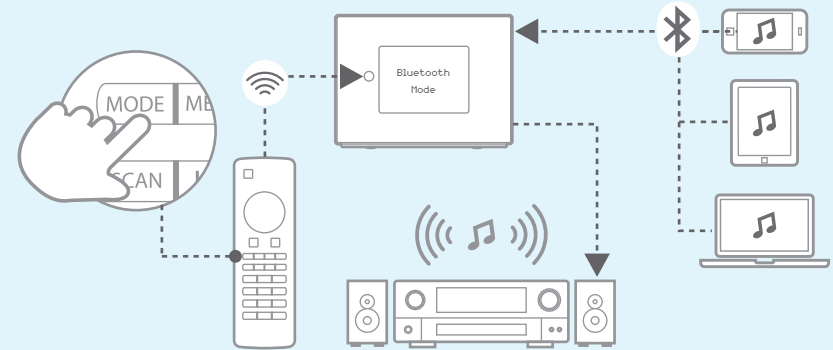

Mode 'FM' lets you listen to local FM radio stations within the frequency range 87.5 -108 MHz.

- a** Press MODE button repeatedly to select 'FM' Mode.
- b** For initial use, it will start at the beginning of the FM frequency range (87.50MHz).
Press **▲▼** buttons to manually change the frequency by 0.05MHz per step.
- c** Alternatively simply press SCAN button to start automatically searching. The search will stop on the next available station. Repeat until your station is located.

8. BLUETOOTH

You can play music from any Bluetooth-enabled device through your BR330DABC.

- a** Press the MODE button until 'Bluetooth Mode' appears on the screen.
- b** Enable bluetooth on your device and select your adapter from the devices list. It will read: BR330DABC.
- c** Select the song you want and press play.
